Hello, my name is Christian Sutton Dunne. I am a third year Cyber Security and Digital Forensics student. In this manifesto I will be highlighting points in which will make me a good Entertainments Officer and member of the Students Union.

- Over the past 4 years in ITB/TUDublin Blanchardstown I have learned a lot about the position in which I’m running for and have noticed the common mistakes and difficulties previous Entertainments Officers have experienced when organising events.
- Outside of college, I’m a bartender in the busiest bar in Blanchardstown. From working here I’ve learned how to approach people in different situations as well as training myself not to panic in busy and stressful situations. Through my job I’ve gained plenty of contacts around Dublin as well as contacts around the country.

These are some of the ideas that I have for next year so long as I’m elected.

- To arrange another mystery tour before the Christmas break as the mystery tour will always be the biggest and best events for YOU to socialise, make new friends and have an amazing night out.
- To interact with the next Clubs and Societies officer in order to hold weekly competitions throughout selected Clubs and Societies with prizes such as tickets to our events for an example.
- To organise an event off campus weekly where you can come and socialise with the student union and get to know us away from the stress and see the fun side of us all.
- To work with YOU the students in order to facilitate better events and find out events you want me to organise as well as venues you wish for us to go to. This will make weeks such as Freshers and R&G a lot more enjoyable for everyone.
- To lobby in order to try stage more overnight events on campus which haven’t been held since I was in first year.
• To organise a cocktail making class and during weeks such as Freshers, Christmas, SHAG and R&G I plan to setup to make fresh non-alcoholic cocktails in the mornings to give you a more refreshing start to the day.

• To arrange an end of exams night out to celebrate getting through the semester and the long stressful sleepless nights stayed up studying.

• Finally, I plan to work to find a local pub which we can call our student bar for the years to come.

My goal is to make everybody’s time in college memorable and enjoyable and I know I have the ability to accomplish these goals. Now I need your support and hope to see you on March 31st and April 1st to vote for me as your number 1 candidate. Thank you for reading my manifesto you beautiful human beings
