A BIT ABOUT ME! - A DEPUTY FOR ALL

A Chara,

Thank you for taking the time to read my manifesto! I'm absolutely delighted to say that after having the pleasure of working with you for 2 years, I'd love the opportunity to work with you again for another year. I've served as a Welfare & Equality Officer, an Education Officer and the Equivalent of a President. This has shaped my understanding of a Students' Union and how to get what we need for our students. I want the movement to become radical, I think we need change. Big time. And with the current situation we don't have time to wait around. We have to act NOW. So let's make 2020 the year that we absolutely push our limits and show that our small campus can make big waves. Let's tackle CORU, let's take on Sustainability, let's rock our events, let's put YOU first. Let's start standing up, fighting back and letting the college know we won't crumble when they put us under attack. I would be absolutely honored to represent you for yet another year. My manifestos on both years have had solid completion rates and I intend to keep it real. I've always had YOUR corner, and I don't intend for that to change any time soon. So on March 31 & April 1, please vote Luke Daly #1

THE MAJOR PROMISES!

TRANSPORT QUALITY

Let's work on Bus Connects, the Shuttle Bus, Time-tables, Leap Card Permanently on Campus and safer bus stops! We've made good work in the past with getting bus stops moved, so there's nothing stopping us from sticking it to them again!

CANTEEN & PRICING

With the canteen under new management, let's take the opportunity to sit down and work with them on the likes of Student Meal Deals that RECOGNIZE that students in this college DO NOT HAVE THE MONEY! We'll look at deals, vouchers and more.

CORU & ACADEMIC QA

CORU policies are a prime example of when academic policies and the University fails the students. We need to sort CORU out once and for all, I've already started the ground work and want to see this through for you to avoid delaying anything any further. This also goes

for other course, your feedback should ALWAYS be given and you're being stripped away from your RIGHTS to have quality of education, you pay enough for it. QA is VITAL for student retention, our drop out rates

YOUR STUDENTS' UNION

I want to transform our campus Union. Staff members for your support. Environmentally sound. Highly professional, ensuring you get the best services provided. I want this Union to be willing to fight for
