

## **Who is Katie Lloyd?**

My name is Katie Lloyd and I am a second year Cultural Industries and Visual Culture student, I am a class rep and an active member within the student council, I am running for the position of East Quad College Officer. I have always been passionate and engaged when it comes to student issues and student politics, I want to ensure that all students have the best experiences they possibly can while in college and believe that I am the perfect candidate to help facilitate a vibrant college experience. I have enjoyed my three years so far in TU Dublin and hope that I can help to replicate the positive experiences I have had so far for all students especially those within the East Quad.

I am a confident, chatty, outgoing student that loves getting involved, I am extremely passionate about everything I undertake and make sure to throw myself fully into everything I do. I am approachable and would love to talk to you, I currently have pink hair (although this may change!) if you see me around campus please come and speak to me!

## **What Are My Aims?**

- Representation is extremely important; I will make it my mission to work alongside the Vice President for Education to get as many class reps elected as possible
- I will make sure that students know what services are available to them such as, the academic writing centre, student counselling services, student services etc and what the students union can do for them
- I would make myself available and approachable to all students in the East Quad so that there is always someone to talk to should any issues arise or just a friendly face to talk to!
- I will take proactive measures to ensure that all the facilities within the east quad are at an acceptable standard, all rooms and student areas are accessible and can be used for their purpose
- I will make it my mission to maintain clear, open communication between myself, other college officers, school reps, class reps and the elected SU team
- I will be actively engaged and involved with all events happening on campus and encouraging students to use the campus to its fullest
- I will work to make sure that students are at the forefront of all student matters and keeping them a priority with everything I do
- Recycling facilities in the East Quad are not perfect and I would love to make recycling and waste management a priority
- Support the SU throughout the year and attend all class rep and student council meetings as well as attending as many additional events as I can
- Representation for all students inclusive of all, races, genders, age, sexuality, beliefs, background etc. is at the core of my beliefs and any decisions I make will have these beliefs at the forefront
