

Sophie Warren- VP for Welfare and Equality-Manifesto

A little bit about me

I am currently the PTO Entertainments Officer for Tallaght campus, I also have experience as student ambassador for TU Dublin and as a volunteer for Foroige. Consistently worked to improve student learning experiences in partnership with students association by creating solutions to long-standing problems. Represented the views of students on matters relating to the student learning experience. Presented positive and negative feedback to staff and other students.

My Plan If elected

- I plan on working with the education officer to tackle the issues that students face when on campus, this includes, making sure everyone has access to both online college resources and access to classrooms/equipment on campus.
- During my term as a part-time officer I received a lot of feedback from various students who felt that their communities and cultures were being excluded from the vast amount of college events that are run each year. If elected, I plan to embrace and celebrate those cultural groups by working with the events officer to organise events that would include everyone, no matter your background.
- If elected I plan on working with the disability officer and the events officer to organise rallies, focus groups and campaigns to raise awareness on issues that students that are in the minority face on a daily basis.
- I would like to see sensory rooms being made across all campuses in TUD.
- I would also like to see more religious and spiritual prayer rooms installed across all campuses.

More information on my policies/motions to come.

Why should you vote for me?

Vote for me, Sophie Warren to be your next VP for welfare and equality if you want, better events, better mental health services/ resources and equal opportunity.
