

"USI is a body with access to resources that must be used to equip MOs to run campaigns independently when the need arises. I will make sure that Officers receive a concise campaigning handbook with the templates for seeking the necessary approvals (each county), press contacts and a checklist of things to be done when organizing a campaign. This is a role that must uplift MOs in our battles and sometimes our efforts are better used to support rather than organize"

Hey everyone, my name is Zaid Albarghouthi and I am running for USI VP for Campaigns. I am a 4th year law student at TCD, and four years ago I moved to Ireland to study. I am the current International Students' Officer at TCDSU, as well as the Chairperson for the TCD BDS Implementation Group. My work there focuses on getting TCD and other bodies to divest from investments in the arms industry (€2.5M divested so far) and lobbying the government for better conditions surrounding the renewal of residencies for international students. This is a role that is there to facilitate ideas and turn them into national, driven and effective campaigns with actual goals and strategies to ensure maximum impact, and for that, I ask you to give me your vote for VP for Campaigns!
