

Improve accessibility to blocks in TUD specially in Blanchardstown for wheelchair users.

Student council notes:

The aim of this motion is to improve the physical environment of the campuses for wheelchair users. Blanchardstown is not very wheelchair accessible, in the student council meeting held in Blanchardstown campus a student council member found it hard to access block D. This should not happen to anyone with mobility issues. This is a welfare issue that students with limited mobility suffer.

Mandate

Vice president of campuses, specially Blanchardstown, and Welfare and Equality Vice President to work together and provide solutions to improve the wheelchair accessibility of buildings before the start of academic year 2023-2024.
