

DRAFT Service Plan 2020/21

Political and organisational priority work areas and work focus for 2020/2021

Preamble

After the last revisit to the 2019-20 workplan in January 2020 a lot has happened.

In January 2020, the three democratic arms of what were the old Students' Unions of DIT, IT Tallaght and IT Blanchardstown entered into mediation to fully decide what the overall Governance of the organisation would be.

In February a formal referendum of the student population happened in order to establish the agreed format of TU Dublin SU CLG. This was voted overwhelmingly in favour of by the students of TU Dublin and work began immediately to begin preparations for the changeover.

In March 2020 the Taoiseach announced the closure of all educational institutions with immediate effect due to the COVID 19 pandemic. We did not return to campus within the remainder of the academic year, and had to complete the remainder of our work remotely for the year.

Our biggest challenge was how to conduct elections on line and the team focussed on this matter, and the first ever on-line elections for the TU Dublin SU were successfully run early April 2020.

Since the completion of elections most of the political focus has been on onboarding the new, and first, completely overall elected officer team of TU Dublin SU, coupled with entering into lengthy negotiations with the Management of TU Dublin on the first centralised Funding Agreement for the new organisation.

Meanwhile the non-political side of the organisation focussed primarily on managing the organisation and staff through the Global Pandemic, and ensuring that appropriate Return to Campus planning is completed. As well as this, they also focussed heavily on the corporate requirements needed in order to change the name of the Company and to reconstitute it, as well as the knock on effects of these changes.

We go into September 2020 with a continuing sense of uncertainty, as does the rest of the world. As the country tries to ease itself back into normality with the opening of schools we are waiting to see what the impact of this increased activity will be on the country. We are also under the direction of the college authorities and their approach to managing the return to campus. It remains to be seen how the academic year will unfold for everybody.

At the same time we have learnt a lot in the last 6-months, from we entered lockdown in an entirely alien situation globally, to the current day. Not least, we have made the move to remote working for all staff and officers safely and successfully. We have conducted the first ever fully online Students Union election, a feat that no doubt would not have happened without the impact of the pandemic. And we have also fully integrated not only the political arm of TU Dublin SU, but also the operational and Corporate side of TU Dublin SU CLG.

As always, we welcome feedback and input and we look forward to implementing this work plan for the coming year on behalf of the Students of the Technological University of Dublin.

Service Plan Statement

The coming Academic Year of 2020/21 will be a historical one indeed for a number of reasons.

With the official formation of the TU Dublin SU CLG in July 2020, it means that while the political organisation TU Dublin SU has existed since 2019, this will be the first Academic Year in which all officers of the Students' Union are under the one single, operational structure, as well as a political one. With this single governance structure has come the beginning of the discussions into the first formal funding agreement between the TU Dublin and the Students' Union. Securing a full and fair Funding Agreement for the Students' Union is a key priority moving forward, as we know how much a first Funding Agreement will influence all further Agreements in the future.

A key priority for the Officers of TU Dublin SU this year will be engagement in the Organizational Design Process for the TU Dublin. As the college works to develop an organisational structure that will benefit all of the Students of TU Dublin it is imperative that the Elected Student Representatives must be involved at all levels to ensure that the Student interest is forefront to all decisions made.

As students begin returning to Campus in September 2020 after a 6 month hiatus, we must work with our colleagues in the TU Dublin in order to ensure this return is as smooth as possible for both returning and first time students. As well as the student return, we are consistently planning in order to prepare for our own team to be ready to return to campus when the opportunity arises. As well as physical changes that need to be made to our spaces, we also need to function within the parameters set by the college authorities, ensure all staff receive the appropriate Health and Safety training and to support them as best we can through this uncertain time. We take our responsibility as good employers seriously.

Having shown that it is possible to conduct online elections we will now explore extending this function to our student members, as well as developing new services for delivery online. As there has been a global shift towards online service delivery, we must look at new ways to engage our student members, given our reliance to date on face-to-face interaction.

While substantially delayed by COVID restrictions, the Grangegorman project continues with current move dates as Christmas 2020. We continue to liaise with the college authorities as our assigned space is developed in the Lower House. As well as the physical development, we also need to work with the elected team to agree what are the political and operational requirements for the space and how we can best meet those.

This political and operational resource assignment needs to be carried out from a new overall perspective too as we do a complete audit of services, resources, spaces and needs requirements for all of our locations. Now that the organisation has been centralised we need to look at balancing a parity of service for all students of TU Dublin, as well as streamlining what existing services are available. As part of our operational planning we must begin long term planning for staffing resources on confirmation of our Funding Allocation. As well as the planned Constitutional review mandated by the Student Council, the company must begin planning for the retirement of the Deputy CEO in September 2021 and how that role will be replaced.

We are committed to working with our colleagues in City Campus, Tallaght and Blanchardstown campuses to continue to evolve the new Students' Union. TU Dublin SU is now the largest Students' Union in Ireland, and we are committed to ensuring it provides the best service possible to its student members.

We are keen to ensure that the tremendous work of the previous Students' Union teams is built on in this time of change.

TU Dublin SU is committed to being the Student Voice of its members, both within the emerging TU Dublin Structures, and to the student body, as we facilitate them through this changing time. This means making everything that TU Dublin SU does as an organisation more visible, and finding new ways to create a more widespread recognition of our achievements and the quality of our

work. This means communicating with our members on as many channels as possible and providing as many of our services online as possible.

We will also continue to develop the emerging policies of the young Students' Union through its democratically elected Student Council, thereby ensuring that we represent the views of **all** students in the TU Dublin and reinforce the values of an independent Students' Union "**Run by Students, For Students and Accountable to Students**" We will seek to ensure that these values are an intrinsic part of the student experience at all levels of student activity, whilst ensuring that the interests of students are fully enhanced at all levels of the TU Dublin.

We will continue to ensure that the Students' Union voice is clearly heard at all levels and that we build on the successes of our predecessors, whilst also building the future of TU Dublin SU in a changing environment. In this work, we will be assisted by the support, excellence and expertise of our professional staff in TU Dublin SU CLG.

What? Task to be carried out in the academic year.	Why? Political mandate e.g. Constitution, Political Manifesto Identified need e.g. Strategic plan, Result of Survey, Legal requirement.	Who? Who is responsible? Political, Management, Support	How? Actions required to carry out the work and deliver the objectives	When? Ongoing / Duration / Delivery date / review date	Budget?
